1 Accounts

Every employee receives one account for email, chat and the staff portal.

Passwords must be changed every 90 days and must have at least 14 characters.

Two-factor authentication with the Northwind app is mandatory for all accounts.

2 Laptops

Laptops are replaced every 4 years or earlier when a repair would cost more than half of a new device.

2.1 Lost devices

A lost or stolen laptop must be reported to it-help@northwind.example within 24 hours.

The IT team then locks the device remotely and erases it when it next connects.

3 Printing

Printers on every floor accept jobs from the staff portal; colour printing needs a project code.
